***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-17, drawn to DNA identified by SEQ ID NO: 1, classified in class 536, subclass 23.7.
- II. Claims 18-20, drawn to DNA identified by SEQ ID NO: 3, classified in class 536, subclass 23.7.

The inventions are distinct, each from the other because of the following reasons:

As set forth in MPEP 803.04 polynucleotides encoding different proteins are different inventions. Accordingly, restriction between these two different molecules is appropriate.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
